

# and Inside Your Outside Cleaning Solution.

The SMT Central System designed for hotels is a true commercial pressure washing system that is built-in for immediate, powerful pressure washing with zero set-up time. Just connect the hose to your building and start pressure washing! Kitchen floors are easy to maintain using the same central system. Keep floors free from grease and soap residue and reduce slips and falls.

The SMT Central System is easy to use and will allow you to institute an outside and inside cleaning protocol with minimal labor each day.
