

## 3 Easy Steps To Clean!

Stainless steel tubing connects the main pumping unit to multiple remote station boxes that are installed in convenient locations. Remote boxes can be installed in any type of wall for retrofits or new construction.

**USING SMT IS  
EASY AS  
1-2-3**

**STEP 1:** *Walk hose reel up to remote station, quick connect the hose to the remote station.*

**STEP 2:** *Turn on the main unit and select 'soap' or 'rinse'.*

**STEP 3:** *Wash down the desired area. You're Finished!*

Optional radio control technology allows the operator quick and effortless function change (On/Off, Soap, or Rinse) saving valuable labor time.
