

INSIDE OUTSIDE CLEAN IT ALL USESMT.

No more disposable portable pressure washers and no more outside service calls! The SMT Central System designed for QSR is a true commercial pressure washing system that is built in to the store for immediate use. Just connect the hose to one of the remote stations, inside or outside, for instant access to pressure washing needs. Keep floors free from grease and soap residue to reduce slips and falls. Institute an outside cleaning protocol using a spot cleaning approach. Realize a fast return on investment utilizing less labor, less water, and most importantly... a clean store. With a system that is always ready to go and easy to use, cleaning becomes effortless, and a customers' first impression is guaranteed not to be their last.
