

PORTABLES

# POWER UP YOUR CLEAN

## SMT-600PEW Portable

The **SMT-600PEW** portable system is specifically designed for institutional use. It features an industrial 3 cylinder plunger pump powered by a 2HP fully enclosed motor. The SMT-600PEW has adjustable soap and sanitizer selectors which feature a flush system so chemical changing is quick and safe.

Our safety first policy protects you and your system, with features such as a thermal limit switch, anti-backflow tank with float switch, a GFCI power cord, and an easy to read pressure gauge.

Also Available With HD Casters
