

SMT-600WCY Central System

The **SMT-600WCY** is our wall mounted SMT Central System. This wall mounted system is excellent for internal cleaning applications where floor space is at a premium. Controlled remotely, it will operate up to 10 remote locations located up to 500 feet from the main unit to effectively and efficiently clean your entire facility.

Let SMT design the perfect cleaning solution for your needs with a 600 WCY central system.
